To whom this may concern,

The general contractor, GFP Enterprises, Inc., for McNeese University Base Camp in Lake Charles, Louisiana and Camp Cameron in Cameron, Louisiana have done an outstanding job setting-up and managing both first responder facilities. I have been working very closely with GFP's management staff and have witnessed first hand the company's exceptional motivation and capabilities. When GFP arrived to establish the initial base camp at McNeese Stadium, the mission was to "***get the job done***" for FEMA and they accomplished just that. I also would like to mention that GFP brought in several necessary items not required by the contract, at no cost to FEMA, simply to accomplish the mission. It has been a pleasure working with this company, they have done an outstanding job and I look forward to working with them in the future.

I would like to personally thank *GFP Enterprises* for their hard work, and dedication which has made Camp McNeese success. Your efforts have given many first responders a wonderful place to stay during their time here in Lake Charles, LA. I also have had the privilege to meet some of the finest men and women that are here working for *GFP Enterprises*. I extend my gratitude in saying thanks for the friendships and memories; they will be cherished for a lifetime.

Thank You!
