Dear Ms. Taube:

Thank you for going above and beyond the call of duty to make life better for employees of the Tulsa District, U.S. Army Corps of Engineers who are deployed in Louisiana as well as people affected by Hurricanes Katrina and Rita.

During these difficult times, your hard work, tireless efforts, positive and caring attitude, and "can do" spirit provided relief and encouragement for everyone in Camp Cameron. Many times you set aside hot meals for those who were delayed or missed a meal or provided a listening ear. Despite the adverse conditions of being in a hurricane damaged area, you genuinely made living conditions better.

Your dedication exemplifies the esprit de corps that makes this Nation great. Enclosed is our coin as a token of appreciation.

Sincerely,

  
Mikroslav P. Kurka  
Colonel, U.S. Army  
District Engineer

Enclosure
